

Please pass this document on to your Technical / Production / Venue staff as appropriate. If you have any questions at all please make contact ASAP so we can work out a solution together: mgmt@1032music.com.

We are aware that every venue and event is different and that the equipment specified in these pages may not always be available, or necessary. If you have any concerns regarding these requirements, please let us know at least 14 days before the show so that we can work together to find a solution. We can work around most challenges in advance, but it's best for everyone if we can avoid too many surprises!

We may bring our own sound engineer to a show, but either way will require one competent, sober and amenable FOH engineer who is familiar with all elements of the house system, to be present at FOH to assist throughout setup, soundcheck, changeover and the show itself.

Thank you so much for your help and we really look forward to working with you!

VIBE/MIX GUIDE

Our vibe is neo-soul / future-soul / soul pop / rnb with heavier elements of hip hop, house and drum and bass, all groove-heavy with lots of solos and breakdowns. In the realms of D'Angelo, Hiatus Kaiyote, Kimbra, Tom Misch, Moonchild, Erykah Badu, James Blake and Anderson .Paak.

ON STAGE OVERVIEW:

VOCALS:	
VENUE TO PROVIDE - EVERY SHOW:	PLEASE NOTE:
<ul style="list-style-type: none"> • 2 x boom mic stands • 2 x XLR cables • 2 x keyboard stand • 3-6 x DI boxes (mono / stereo) • 1 x vocal mic (SM58 or above) • 1 x monitor wedge 	<p>The band will likely bring:</p> <ul style="list-style-type: none"> • 1 x Audix OM7 (run through TC Helicon unit below) • 1 x TC Helicon VLT2 voice effects unit (XLR out) • 1 x Nord Electro 6D (used via DI + midi source for vocoder) • 1 x Roland VP-03 vocoder (used with the house mic, jack out) <p>If required, the band may also bring:</p> <p>1 x Shure PSM 300 IEM system, which will require the appropriate frequency license to be used at your venue / event</p>

IDEAL SOUND SET-UP / TECHNICAL OVERVIEW:**FRONT OF HOUSE SYSTEMS**

A well-maintained PA system that is at least four-way stereo, capable of producing 115dbA +/-2dB at all points in the venue space, clear and undistorted.

MONITORS

Minimum 4 wedge monitors for 4 separate mixes (including one stereo feed for IEMs) with frequency approved for IEM use.

ENGINEER(S)

At least one competent, English-speaking, sober and amenable engineer who is familiar with all elements of the system should be present to mix for the band throughout setup, sound check, changeover and show.

BACKSTAGE FACILITIES

A secure backstage area / green room on site, with seating for up to six, adequate lighting, a full-length mirror and access to a bathroom. Bonus points for tea/coffee making facilities with non-dairy milk, and extra bonus points for nutritious backstage snacks! Safe and secure storage for all our equipment will need to be provided for when we are not on stage, and transport assistance may be required, if the stage is not easily accessible by car.

HOSPITALITY

We have **2 vegans, 1 vegetarian and 1 omnivore** in our band, and may be travelling with 1-2 other guest artists / crew. Please confirm the hospitality and rider requirements as agreed between the band and the booker. This will no doubt be outlined in any applicable contracts.

In all cases, please provide access to a good supply of drinking water, before, during and after the show.

We will always strive to work with venues and technical staff to make sure that things are as awesome as possible because putting on a good show is always our top priority.

If you have any concerns about this document, or if various requirements need to be confirmed / adapted, please make contact with the band as soon as possible so we can find solutions together. We look forward to partying with you!
